## SOME PERTINENT QUESTIONS FOR MR. OLIVER

WHERE DID THE MONEY COME FROM? WHAT DID HE DO WITH IT? WHAT WAS HIS PART OF THE INTRIGUE? HOW DID HE HAPPEN TO RECEIVE \$19,350 CAMPAIGN FUNDS AFTER ELECTION WAS OVER?

## STRATHCONA TAX RATE IS FIXED AT 16 MILLS

Surplus Carried Over From Last Year Admits of Big Reduction

POWER HOUSE ENGINEER DISMISSED BY COUNCIL

Wanted Extra Remuneration for Extra Work, but City Fathers Could Not See It That Way—Committee is Now Looking for a New Engineer.

Strathcona, June 30.—The lowest tax rate in years is to be allowed the citizens of Strathcona this year, the council in an adjourned session last evening deciding that 16 mills would give sufficient revenue for all requirements in 1911 and still leave a handsome surplus for civic improvements. Estimates were finally submitted and the current figures passed reached a total of \$100,000, to which was added the \$10,000 required by the public schools and the \$5,274 for the separate school, giving a grand total upon which to strike a rate of 14.625. The feeling seemed to be general in council that the rate should figure out considerably reduced from the 19 mills assessment of last year but when the division was made, Ald. Richards' announcement that the result was 19.5 mills, a momentary consternation on the part of some. However, Ald. Richards mentioned the members of the council of \$72,000 spoken of by the city auditor in his report for the year ending December 31, 1910, which it was suggested should be returned to some of the ratepayers. Taking \$60,000 of this amount and the rate of 12 mills was found to be feasible for the present year.

**Objection to Low Rate**  
The idea of a 12 mill rate did not appeal to Mayor Davies. He pointed out that there might be no end and a double arise if all the surplus, more or less available, should be utilized to bring down the tax rate for just one year. He saw a possible danger to the municipality in this monetary decrease.

"This surplus has been obtained at the expense of the past and I for one am in favor of saving the ratepayers the benefit of a possible low rate," declared Ald. Richards, chairman during this order of business.

For half an hour the members discussed the question and the opinion appeared to be general that it would be

REVIEW AT BUCKINGHAM PALACE.

London, June 30.—The picked troops who came here for the coronation from the Overseas Dominions and from India were reviewed by King George at Buckingham Palace this morning. The event concluded the long list of coronation ceremonies and festivals which have kept London astir since the beginning of June.

The scene on the terrace was a very brilliant one, the European military and naval dress being quite outshone by the brilliant apparel of the Indian princes. The great lawn beyond the terrace was a marvellous sight in red, yellow, green and blue. The Sikhs, Bengalees and other foreign contingents made a strong contrast to the khaki-clad troops from Canada, Australia and other parts of the empire.

At the word of command, rifles and carbines were grounded, and the contingents, one by one, filed past the royal canopy, saluting their Majesties, and receiving medals commemorating the coronation.

## WOMAN SENTENCED TO BE HANGED TELLS STORY OF HER CRIME

MINISTER OF JUSTICE PROMISES THAT VOLUME OF PROTESTS AGAINST EXECUTION OF ANGELINA NEOPOLITANA WILL BE CAREFULLY CONSIDERED.

Sault Ste. Marie, Ont., June 30.—The last hope that Angelina Neopolitana, under sentence of death here, would know her fate before the delivery of her child was shattered today by a message received from the minister of justice, Mr. McKenna, that the case would receive his "careful and anxious consideration." It could not be investigated for some time, as there were several capital cases up for his consideration where the date of execution was set for dates prior to August 9th, the day on which Mrs. Neopolitana is to hang.

The petitions are having their effect as the minister stated in his letter to Attorney McKenna that seven packs of mail have already been delivered at the department and that every mail brings tenfold more petitions. It is likely that the woman will be released.

The petitions are having their effect as the minister stated in his letter to Attorney McKenna that seven packs of mail have already been delivered at the department and that every mail brings tenfold more petitions. It is likely that the woman will be released.

## REORGANIZATION OF U.S. ARMY DEPARTMENTS

SECRETARY OF WAR BELIEVES THAT UNDER NEW SYSTEM HE WILL EFFECT SAVING OF \$400,000 PER YEAR—CHANGES GO INTO EFFECT TODAY.

Washington, D. C., June 30.—The army department reorganization has been a subject of much discussion since the plans were first announced by the War department some months ago, came direct into effect today. The reorganization is in the interest of simplified administration. The War department believes it will expedite the transaction of business connected with the army and effect a saving of about \$400,000 a year in army administration.

The leading feature of the new plan is the establishment of three main divisions. These are the Eastern division, with headquarters at Governor's Island; the Central division, with headquarters at Chicago, and the Western division, with headquarters at San Francisco. At these places the principal work is to be concentrated. The divisional officers will give attention to the purely military business, leaving the department commanders to deal with administrative detail. The object

## THREE DAREDEVILS WILL SPEND SUMMER IN THE CANADIAN ROCKIES

ALMOST PERISH IN NIAGARA

AVIATOR PERFORMS A FEAT WITH-OUT DEEMED IMPOSSIBLE BUT HAS NARROW ESCAPE

Niagara Falls, June 30.—Lincoln Beachey, the fearless aviator who yesterday afternoon performed a feat hitherto deemed impossible, when he flew over the Horse Shoe Falls and under the upper steel arch bridge, narrowly escaped death in the second flight over the Niagara river today.

Bobby Leach, who said the whirlpool rapids in a barrel was almost defeated before he was taken from the whirlpool.

The great Horseshoe was traversed for half an hour on a wire on which he slid across the gorge. Leach is in a serious condition tonight but Beachey and Horseshoe are none the worse for their experience.

When Leach entered the whirlpool rapids in a steel barrel he was caught by a giant wave and hurled twenty feet into the air. With a splash that could be heard above the angry roar of the rushing waters the barrel was hurled over the man slung on a canvas hammock within its dark interior. The barrel was caught by the outer current which cut under the barrel and was carried over the falls before it was brought ashore.

## GIBBONS FIFTY YEARS A PRIEST

VENERABLE PRELATE IS ENJOYING BEST OF HEALTH—77 YEARS OF AGE IN JULY

Baltimore, Md., June 30.—Cardinal Gibbons today rounded out half a century as a priest of the Roman Catholic church, and a quarter century as a member of the Sacred College, a combined distinction which no American ever before attained. It was on June 30, 1861, that the prelate was ordained by the archbishop of Baltimore. Next month Cardinal Gibbons will pass today without any special observance beyond the special masses celebrated throughout the diocese and the receipt by his friends of a large number of congratulatory letters and telegrams from friends and admirers throughout America.

Cardinal Gibbons' jubilee was celebrated some weeks ago by a great non-sectarian gathering in the city which was attended by President Taft, ex-President Roosevelt, Chief Justice White and many other notables. About the middle of October, when the season is more suitable than at present, the ecclesiastical celebration will take place. At that time it is expected

How He Holds His Following

Hon. Frank Oliver Touring His Constituency.

## NOT PUBLIC MEETING SAYS G. B. O'CONNOR

PROVISIONAL PRESIDENT OF LIBERAL ASSOCIATION STATES THAT HON. FRANK OLIVER WILL ADDRESS ASSOCIATION MEMBERS ONLY.

Interviewed by the Capital this morning George B. O'Connor, provisional president of the new Liberal association, stated that at the meeting this evening, at which Hon. Frank Oliver is scheduled to deliver an address, only members of the association would be present. "The statement published in the Bulletin to the effect that this would be a public meeting was incorrect," said Mr. O'Connor. "It has been decided that this meeting will be open only to members of the association."

Whether or not the meeting would be open to the members of the press Mr. O'Connor was unable to say.

## Grand Trunk Pacific Will Erect Hotel in Jasper Park

GENERAL ADVERTISING AGENT OF COMPANY WILL SELECT SITE WITHIN NEXT FEW DAYS—PLANS HAVE NOT YET BEEN PREPARED.

A site for a large palatial tourist hotel in Jasper park in the vicinity of the hot springs up the valley of Fiddle creek will be selected with the next week by H. H. Charlton of Montreal, general advertising agent for the Grand Trunk Pacific and the Grand Trunk railway system. He will leave Edmonton tomorrow morning on a trip over the right of way through Jasper

park. The chief object of his trip will be to select the hotel site.

Last summer Mr. Charlton spent some time in Jasper park making investigations as to the most suitable location for a big tourist hotel. On his return from the park he prepared a report on a letter received here and on this trip he will make a selection of one of these.

Party of Scientists Leaving for West Tomorrow Morning

BOUNDARY QUESTION MAY ALSO BE SETTLED

Party Will Try and Definitely Fix Line Between Alberta and British Columbia—Will Gather Data on Animal, Vegetable, and Bird Life.

When the party that is going into Jasper park tomorrow morning under the guidance of A. O. Wheeler, director of the Alpine club returns to civilization next fall the members will have collected data regarding the topographical features of this section of the Rocky Mountains and the animal, vegetable and bird life of the hitherto unexplored region, that will be invaluable to scientists.

Some questions regarding the boundary line between Alberta and British Columbia will also be settled as a result of investigations of members of the party. The boundary line in the vicinity of Mount Robson is said to be incorrect on all the maps published hitherto. An attempt will be made to get the exact location of the water shed this summer. Mount Robson is the highest peak in the Rockies and the summit of the mountain.

One of the members of the party will be George Kinney, who scaled Mount Robson during the summer of 1904 after having made two unsuccessful attempts previous to this. It is probable that Mr. Kinney will climb his famous peak again this summer. He will conduct the topographical survey work in that vicinity.

Mr. A. O. Wheeler is taking with him a Swiss guide, Conrad Cain, who has been with him in the Rockies at Banff during the past two years. Mr. Cain had wide experience among the famous peaks of the Alps before coming to Canada but he says that he likes the Canadian Rockies better. The Rockies are not so over-run with tourists and civilization. One gets more of camp life in the Rockies than in the Alps.

The four representatives of the Smithsonian institution at Washington, Ned Hollister, J. H. Riley, C. J. Walcott, Jr., and H. H. Hayden, who arrived in Edmonton yesterday will also be members of the party. The expedition is being carried on under the auspices of three governments, the Alberta government, the G. B. G. and the Dominion government.

The party will go west over the G. B. P. R. tomorrow morning in the private car of W. P. Hinton, general passenger agent of the railway. Mr. Hinton is a former member of the Senate and colonization agent and H. H. Charlton general advertising agent for the Grand Trunk Pacific.

## HOLD PRIMARY STATE OF KENTUCKY

TWO DEMOCRATIC ASPIRANTS FOR THE GOVERNORIAL CHAIR—LIQUOR QUESTION AN ISSUE

Louisville, Ky., June 30.—On the eve of the Kentucky Democratic primary at the end of one of the most interesting and bitterly fought campaigns the Blue Grass State has seen in some years, each of the two candidates expresses confidence and an unusually heavy vote is anticipated tomorrow.

Nominations for state officers from governor down are to be selected and a candidate addressed for United States Senator to succeed Senator Thomas, whose term will expire in March, 1913, and whose successor will be elected by the next legislature. Senator Payton is a candidate to succeed himself. His opponent in the primary will be Ollie M. James, representative of the First district in Congress and one of the most conspicuous leaders of the Democratic party in Kentucky.

Two aspirants for the gubernatorial nomination will fight it out in the primary. They are James B. McCreedy, who formerly sat in the Kentucky Senate, and William Adams, whose home is in Harrison county. Interesting contests are on for the nomination for lieutenant governor, auditor, attorney general, superintendent of public instruction and commissioner of agriculture, labor and statistics. Though the liquor question and various other state issues have been discussed the campaign as a whole has been conducted along personal lines and with the rivalry of the several factions of the party playing the most conspicuous part in the fight.

## CANADA FACING POTATO FAMINE

Winnipeg, June 30.—There is a potato famine in sight for all Western Canada, for at the present time potatoes are selling here at \$1.75 per bushel, with 25 cents being asked for three pounds of the new crop imported from the south.

Two weeks ago the wholesale price for old potatoes here was 90 cents per bushel but today it is \$1.25 to \$1.50 with no supply.

Heavy rains in certain sections which have drowned out the crops are said to be responsible to the famine.

Owing to Saturday, July 1st, being a public holiday, there will be no regular meeting of the board of directors of the Y. M. C. A., but it will be postponed to Saturday, July 8th, 1911. Further notice next week.

TOMORROW'S PAPER

Tomorrow will contain Dominion Day and a holiday. The Capital will not be published.

## COMPANIES INCORPORATED DURING SIX MONTHS OF YEAR CAPITALIZED AT OVER FIFTY-MILLION DOLLARS

Thirty One Companies, Capitalized at \$5,665,000, Have Taken Out Papers at Government Buildings During June—List of Those Incorporated

Foreign and domestic companies having a total capitalization of over \$5,665,000 have been registered in the province of Alberta during the six months of the year which come to an end today. The year has been a record one in respect to the number of new incorporations, surpassing the total for 1910 by a enormous margin.

During the present month thirty-one companies have been incorporated under the domestic ordinance, these new Alberta companies having a total capitalization of no less than \$5,665,000, while the five foreign companies which have been registered under the foreign companies ordinance, have a capitalization of \$9,715,000, bringing the total

for the month of June to \$15,380,000.

The North Saskatchewan Land Co., Ltd., of Montreal, Que., capital \$5,000,000, is the company with the largest individual capitalization. The companies incorporated during the month are as follows:

**Foreign Companies**  
The Canadian Real Estate Investment Trust, Ltd., London, England, capital, \$2,500,000.  
Berkeley-Alco, Ltd., Farming Co., Berkeley, Cal., \$15,000.  
The Great Dominion Land Co., Ltd., Vancouver, B. C., capital, \$800,000.  
North Saskatchewan Land Co., Ltd., Montreal, Que., \$5,000,000.  
The Real Estate Loan Co. of Canada, Ltd., Toronto, \$1,600,000.

**Provincial Companies**  
McCallum, Ltd., Calgary, \$50,000, provisional directors, Samuel J. Blair, Henry M. McCallum, Fred L. Haggard, M. W. Robbins.  
Western Canada Mortgage Co., Ltd., \$2,500,000, provisional directors, H. M. E. Evans, Jas. P. Erskine, A. B. Seabrook.  
Western Homeholders, Ltd., \$100,000, provisional directors, H. M. E. Evans, Jas. P. Erskine, J. H. M. Ennis.  
Edmonton Union Stockyards, Ltd., \$50,000, provisional directors, J. S. Chie, H. A. A. Macdonald, G. Ross Palmer, J. Anderson.

(Continued on Page Four.)

## CANADIAN MEETS A HORRIBLE FATE

Slawnee, Okla., June 29.—Ruht, Swaze, a Canadian, was burned at the stake by Mexican bandits near Fort Sumner, New Mexico, on June 15, according to a letter received here today from Mrs. Emma Blumman, formerly of this city and mother-in-law of the dead man.

It was killed because he refused to reveal the hiding place of a large amount of money that had been left in his care by a Mexican railroad which employed him, the letter said. Mrs. Blumman has notified the British government of the case.

## MINERS WILL GET 7 P.C. ADVANCE

REPORTED THAT CROW'S NEST REBELLION BOARD HAS REACHED DECISION

Nelson, B.C., June 29.—It is reported here on good authority that a settlement of the Alberta and Crow's Nest Coal strike is arranged, the operators having agreed to offer the day workers an increase of seven per cent. in wages and other concessions, not including the closed shop, and it is understood that the strikers have agreed to accept the offer.

## SIR WILFRID COMING HOME

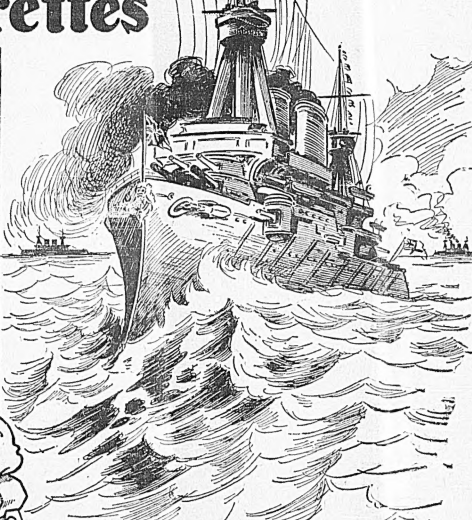

London, June 30.—Sir Wilfrid, the minister who received the most conspicuous figure in the Imperial Conference, and also a leading participant in many of the coronation functions, sailed for home on the Empress of Ireland. In taking his departure at this time Sir Wilfrid has been obliged to forego much of the entertainment arranged for the colonial premiers, but he desires to reach Ottawa as soon as possible to be in readiness for the resumption of parliament.

## TRUSTEES OF CHURCH DISMISS ARCHITECT

MAN WHO HAS SUPERINTENDED ERECTION OF NEW YORK CATHEDRAL DISMISSED BECAUSE HE FOLLOWED ACCEPTED PLANS.

New York, June 30.—The dismissal of C. Grant La Farge, the architect of the Cathedral of St. John the Divine now in course of construction, by the trustees of the church throws an interesting light upon the peculiar methods employed in the erection of that great church edifice which is to crown Morningside Heights. Mr. La Farge and his former partner, the late George L. Heins, were the architects who made the original plans for the church, about twenty years ago. They were in charge of the work of construction ever since the work began, until Mr. Heins died. Then Mr. R. W. Morris joined Mr. La Farge in the task of superintending the construction of the church. It appears that the original plans, which had been accepted by the trustees of St. John, were never followed. Upon the request or demand of the trustees changes were made from time, which materially modified the original conception of the cathedral's architecture. The trustees, of course, are of the opinion that the changes suggested by them are great improvements, calculated greatly to enhance the beauty and grandeur of the structure. Whether Mr. La Farge, being a mere architect and not a trustee, disagreed with the trustees or whether he was considered too slow to act upon the valuable suggestions of the trustees, is not known, but the fact remains that the trustees dismissed Mr.

## DON'T BE BALD

Nearly Anyone May Secure a Splendid Growth of Hair

We have a remedy that has a record of growing hair and curing baldness in 33 out of every 100 cases where used according to directions for a reasonable length of time. That may seem like a strong statement—it is, and it means it to be, and no one should doubt it until they have put our claims to an actual test.

We are so certain Reval "93" Hair Tonic will cure dandruff, prevent baldness, stimulate the scalp and hair roots, stop falling hair and grow new hair, that we personally give our positive guarantee to refund every penny paid for it in every instance where it does not give entire satisfaction to the user. Reval "93" Hair Tonic is as pleasant to use as clear spring water. It is delightfully perfumed, and does not grease or clog the hair. Two sizes, 50c. and \$1.00. With our guarantee back of it, you certainly take no risk. Sold only at our store—The Reval Store. A. Archibald.

impairment upon these rowdies, whenever they are brought into court. If the police should succeed in breaking up the various gangs, in suppressing the car rowdies and in driving out a considerable part of the Italian undesirable in certain localities of Manhattan and Brooklyn, New York would be a pretty safe place to live in.

Some police magistrates in this city have distinguished themselves recently by giving evidence of "almost human intelligence," as the typical circus writer would express it. The other day a party consisting of two men and several women were out boating. One of the men instead of making the boat to grizzle the women and did it so successfully that the boat shipped quite a lot of water and the women became almost hysterical. The other man, however, without success. He said no more, but when the party was safely on shore, he gave the "rocker" a punch in the jaw, which sent him into the water. He had to be fished out with a lifehook. The bedraggled "rocker" had his assailant arrested, but when the case was explained to the magistrate the latter dismissed the case and expressed his regret that he did not have the power to send the complainant to jail.

Eli Grog, a girl of seventeen years, and pretty lush for her age, appeared in the Adams street police court, in Brooklyn, New York, charged with having thrown a brick through the window of a saloon. For some reason the trend of the proceedings in court did not please the girl. She became excited and suddenly, without any warning, she snatched her stick hat off and threw it at the magistrate. Her aim was bad, however, and the bunch of hair hit one of the clerks in the mouth. He spit out a few hairs and then, politely grinning, returned the bunch of "crowning glory" to her. The girl was so excited that the hearing of the case had to be adjourned.

There is a painter, named Evan Sherman in this city, who holds the record for falling from heights without hurting himself. The other day he fell from the top of an eight-story building, landed upon the sidewalk on his feet without sustaining any injury excepting a bruise in his trousers. The man, who is now about fifty years of age, has a record of more than one hundred falls, many of them from considerable heights. He has become so skilful that he never injures himself, his feet nearly every time and never has he sustained any injury beyond a slight sprain or a few scratches. His friends call him the "Human Cat."

A real estate broker in this city caused considerable excitement among the press as at the scene of his fall the other day, when he made the positive assertion that he had two hearts, one on each side of his thorax. He said that the two hearts did not work in

unison, but alternated and so positive was he in his assertions, that a careful examination was made. It was found, however, that the man did not have two hearts at all, but only one, and that in a decidedly bad condition. The physicians ascertained by an X-ray examination that the man was suffering from well-developed aneurism of the heart, which accounts for the peculiar sensations complained of by the patient and which made him believe that he had two instead of but a single heart. The outcome of the case is awaited by the doctors with considerable interest, as aneurism of that character are comparatively rare.

## SENATOR BORAH CONGRATULATED

Washington, D.C., June 29.—Senator Borah of Idaho, who the agricultural intelligentsia as a possible running mate for President Taft next year, received the congratulations of his colleagues in the upper house today on the occasion of his forty-sixth birthday anniversary.

## A LONDON MOVE FOR RURAL LIFE

LORD CONINGTON HAS SCHEME FOR GETTING PEOPLE BACK ON THE FARM

London, June 30.—The popularity of Lord Carrington's scheme for the revival of rural life was evident at the luncheon given recently under the auspices of the Royal Development Society, where landowners, tenant farmers, small holders, members of city councils and members of parliament were present, and cheered him enthusiastically when he rose to reply to the toast to his health.

The chairman said they were there with a measure of gratitude to Lord Carrington for what he had already done, and to ask him for more.

Lord Carrington spoke of the early efforts of the movement in 1906 when it was suggested to him that there should be a permanent body of commissioners to promote small holdings and the provisions of financial aid to the owners. Then came the passing of the small holdings act in 1909 and 1910 the scheme progressed further, and, with a comparatively small staff, they had secured 161,000 acres for the people. He had been blamed for coming too slowly, he said, but he had always tried to secure that nothing should be done which could afterwards be brought up against them. He wished to have public recognition that their scheme was a good one, and to have the whole of public opinion in England at their back. Now they had come to the time when they ought to go ahead. In the early part of last year the prime minister and his colleagues in the government had agreed that the time had come when the board of agriculture should have more help and that more permanent commissioners should be appointed, with full statutory powers. On May 15 the cabinet definitely sanctioned the scheme and the commissioners were carefully selected with regard to their administrative efficiency and appreciation of the act. Credit societies were the basis of the whole scheme of rural development, he said. The banking system of England, splendid though it was, had not touched the problem of enabling people in the villages to use it in rural development. The lending bankers had been consulted and he hoped were assured that the movement was not hostile to them, and that they would give them cordial co-operation. Their scheme was to provide money as working capital for the small holder and the village worker.

Another step he hoped soon to take was to see if they could not get back to the land some of the agriculturalists who, attracted by higher wages, had drifted away to the towns, but whose hearts were still with the land. He hoped to make a beginning by starting experimental farms, and by putting back some of these people who had been drawn away. He said he would be fit to have it to tell his colleagues that this was no idea of his own, but was one originated by people who live among those who want the land. It enabled him to tackle the problem of setting land for the 8,000 men acknowledged by the county councils to be fit to have it. This was the work set for himself and them to do, and he trusted that with courage, strength, perseverance and co-operation, England might become a treasure house for the thrifty and industrious poor.

Several major league clubs are trying to land Pittsburgh Earl Akers of the Dubuque Three L League club.

irregularities in delivery.

## Mr. Oliver Does Well To Call a Meeting

Frank Oliver has decided to hold a meeting, under the auspices of his hand picked association.

This is in line with the action which, as a representative of the people he should pursue, and his decision to meet the electorate will be hailed with glad acclaim by his friends in the city.

There are certainly many reasons why a meeting should be held at the present time, for there are a number of things which should be cleared up.

In the first place, there is the matter of the \$69,350. It is to be hoped that Mr. Oliver will take advantage of the opportunity tonight to explain where this money really did come from. If, as Senator Talbot says, it was campaign funds placed in Mr. Oliver's hands for the purpose of carrying Alberta for the Liberal party, Mr. Oliver should explain who is the patriot who tendered such large sums in the interests of good government, and what particular brand of good government the patriot hoped to see triumph.

Also Mr. Oliver should take advantage of the opportunity to explain what became of the money. If it was campaign funds, he should assure his hearers that expenditures made a year in advance of the election were election expenses, and that payments out two years after the election were in the same cause. This is particularly interesting to the Edmonton public, especially in view of the fact that so far as Frank Oliver is concerned there are reported to be some campaign expenses which he has not met yet.

Then Mr. Oliver might explain that White-Boyle letter. On the occasion of his last meeting in the city Mr. Oliver stated that he was not a party to an intrigue to wreck the Rutherford administration, and that the man who was a liar, Mr. Oliver now has the specific statement of Mr. White which he may attack. If Mr. White had no information on which to put in working the statement that Mr. Oliver was jubilant at the overthrow of the Alberta government, now is the time for the minister of the Interior to say so, and to repudiate any understanding with Mr. Boyle or anyone else in this connection. Not necessarily for publication, but just as a matter of good faith, he might produce the cancelled checks to show that none of them went to Mr. Boyle, for destruction purposes.

These little matters and a few others might just as well be cleared up now. An election is coming within the next year, and if the party is to get together, as the Bulletin has been wont to suggest, any misunderstandings should be wiped away without delay.

Certainly Mr. Oliver does well to call a meeting. His friends would have been greatly disappointed had he failed to do so.

## The Observer Gentleman Not Altogether Disinterested

Fanned to a frenzy by the publication of the White-Boyle letter, the Vegreville Observer, spokesman for "Nobby" White, hurls a whole column of hand-set to-point at the Capital, charging this paper with everything from shoddyism to house prowl, and intimating that while the letter is genuine it does not mean anything.

The Observer disclaims being a political instrument for the promotion of the White interests, but in this connection it is worthy of note that the editor, Mr. Horton is not altogether out of touch with the powers that be in Ottawa, and that, when necessary, a recommendation which might profit him personally is not always lacking.

For instance, there was a post-office site purchased in Vegreville not so long ago. If the transaction was as well in that district as it does in the Edmonton district it is to be presumed that such purchases are made on the recommendation of the sitting member. At any rate, the citizens of Vegreville asked the same privilege as was exercised by the citizens of Strathcona a year ago when they voted on a plebiscite to determine where the post office should be located. But for reasons not apparent at this distance, the right was denied and the site was purchased without reference to the citizens.

And when the smoke had cleared away it was discovered that the party who sold lots to the Dominion government in the constituency which Mr. White represents was his worthy friend, Mr. Horton, of the Observer.

Of course it is easy to understand that this has nothing to do with Mr. Horton's strenuous support of Mr. White. How could it have?

## Mr. Borden Earning His Seven Thousand Dollars

With his \$7,000 a year as leader of the Opposition, Mr. Borden very nicely and in a most dignified and statesmanlike manner leads an opposition which does not oppose, and which, apparently, has no intention of opposing.

Could anyone imagine, for instance, a Liberal in the fighting days of opposition coming with a bunch of spellbinders into the constituency of a minister of the crown charged with the political offences of which Frank Oliver is accused and making no reference to the topic whatever?

It will not do to say that a parliamentary committee is investigating the matter of the \$69,350, and that therefore the matter is just justice, or something to that effect. If the parliamentary committee intends to investigate anything it is the question which is really immaterial so far as the country at large is concerned. But the parliamentary committee has no intention of investigating the question of where the money went to, nor of what was done with the various sums, such as the \$18,000 which Frank Oliver took south to campaign in the southern constituencies where Mr. Borden has a following.

Actually, the Pacific scandal, which swept Sir John and his government out of office was never as directly proven or as plain as the \$69,350. If the brazen effrontery of the Oliver graft is allowed to pass unnoticed at the present time, certainly the campaign material of that date must have been a very harmless brand of red fire and the electors of 1872 must have been very easily swayed.

Judging from where we sit it, looks as though Mr. Borden is earning his \$7,000 per annum.

## Dominion Day The Canadians' day

Tomorrow is Dominion Day, our day, the day when all good Canadians should celebrate.

All the other holidays of the year we share with others, but tomorrow we celebrate an event which is purely and essentially Canadian, the confederation of the provinces and the launching of the Canadian nation.

Time was, and not so very long ago, when Canada's national

holiday did not mean much, when the individuality of the Canadian nation was so wrapped up in the larger empire, when this country of ours was too small to aspire to nationhood.

But with each succeeding birthday Canada shows greater and greater development both in material things and in the Canadian spirit, and it is no disloyalty to the British Empire as a whole to say that the time is not far distant when Dominion Day will be the great holiday of all in this Canada of ours, and when there will be more Anglo-Saxon people in Canada to celebrate Dominion Day than there are in any other part of the British empire.

## JUST PARAGRAPHS

Reciprocity, says Mr. Oliver, is the question, and Ontario and B.C. are to be the battle grounds. Oh for some quiet brook in the Tamagami country or a shady spot at the foot of some glacier in the Spillamachine, with nothing to do but awaken the echoes of the gigantic silence with declamations on the reciprocity question.

William Jennings Bryan says the man who is afraid to publish the source of his campaign fund is not a safe man to elect. Probably Frank Oliver draws the moral that inasmuch as that Bryan did not succeed in getting elected his philosophy must be wrong.

One of the surest methods by which Mr. Oliver could arouse enthusiasm tonight is to produce his Ottawa bank account, just to assure the hand picked association that there is more left where the \$50,000 came from.

Is Frank Oliver in favor of turning over the natural resources of the province to the province, or is he in favor of continuing to administer them from Ottawa himself?

If the \$69,350 was campaign funds, why was the payment to the great campaigner of the \$19,350 delayed until after the election?

STRAITHONA TAX RATE IS FIXED AT SIXTEEN MILLS  
Continued from Page One.

poor business to take advantage of the surplus for one year and decrease the rate with the knowledge that the rate would have to be placed as high as ever the following year. Mr. Tipton was strongly opposed to such a great fluctuation in the tax rate. He was in favor, as were nearly all the rest, of using as part of the surplus in making much-needed improvements to various forms of work in the city.

At the past session a stock of unanimous decision was reached to make the tax rate 16 mills, or in reality making use of a trifle less than \$39,000 of the available surplus.

How Surplus Originated

The collection of this \$75,000 surplus, while it cannot be traced accurately, seems to have had a nucleus in the \$30,000 debenture issued when the city was incorporated in 1906, for the purpose of covering a supposed deficit which was later found to be non-existent. On top of this sum has been added various surplus amounts from the estimates of different councils, as for instance the surplus of nearly \$125,000 last year. Speaking of the present situation Ald. Rankin said last evening: "We in this council of course do not take the credit for this year's condition of the finances, it has been the work of former councils; we happen to fall into a good position. This surplus of course, is not available in ready cash but is outstanding in arrears of taxes. The surplus was pointed out last night, there may be some decrease in collection, though this should be small."

The total of the current estimates for the present year reach \$110,000, leaving approximately \$100,000 in surplus when the revenue of \$125,000 is subtracted.

Another Firm Gets Contract

Ald. Richards for the light committee reported that the tender of Watson and Co. of Edmonton had been accepted at \$12,000, for material and labor for the power plant to provide for the installation of the new electrical machinery. The corporate bonds of the company will be forthcoming and a marked check for five per cent of the contract amount was submitted.

The special committee appointed to deal with the recent application Ald. Richards recommended that the Y. M. C. be not granted free use of the city hall as requested but that their accounts be submitted in the regular way and a refund be allowed by the city for the amount involved. Ald. Richards made it clear that he is opposed to any concessions being granted for free light recently.

Chief Engineer Dismissed

Fully an hour was spent last night in discussion in council last night the refusal of Chief Engineer Evans to superintend construction at the city power plant without extra remuneration for the work. The question of the trouble between the engineer and council was raised by Ald. Richards who inquired if there was not a report forthcoming from some committee on Mr. Evans' resignation for an indefinite period. This committee, which appeared to consist of the majority of the council, reported that Mr. Evans' resignation had been requested unofficially. His Worship and other members of the council expressed their regret but have- to take action but in the end a motion passed unanimously instructing the secretary-treasurer to notify Mr. Evans that he is no longer required. The fire and light and water and sewer committees were given power to act in the matter of engaging a new power house superintendent.

Will Attend Meeting

It was decided that Mayor Davies and Solicitor Jannison shall represent Edmonton in Calgary July 3. When the Alberta mayors confer with the provincial government in an attempt to force upon and draft a uniform charter for all the cities in the province. All the council with the exception of Ald. Calder were present last evening. Adjournment was made at 11:30.

Strathcona Locals

An event of considerable importance in church circles was held last night in Metropolitan Methodist church when the congregation of the Strathcona branch of the church met for the first time since the church was organized. The affair was participated in by a large number of members and

proved highly successful.

The reports committee have made arrangements with the street railway department for a 10 minute car service on the inter-urban line tomorrow for the benefit of Edmonton visitors to the big celebration in this city.

An attempt is being made to secure a single fare return rate for the day.

At the Strathcona hotel last evening a number of the young men of the city partook of a farewell banquet to Mr. B. D. Wilson, for the past year manager of the Dominion bank here, and who has resigned from the service and leaves Sunday for Vancouver, where he will engage in the service of a new banking institution. Mr. and Mrs. Wilson have made many friends in their residence in Strathcona who regret exceedingly to see their departure.

The funeral was held yesterday afternoon, from the family residence on First avenue north east, of Mrs. Jamieson, who for the last few weeks has been gradually falling in health. The deceased was well up in years and has been a member of the Holy Trinity church. A daughter, Miss Jamieson, is left here to mourn the loss.

The regular monthly meeting of the Strathcona Horticultural Society was held last evening in the police court rooms with a very light attendance of the members, owing to the inclement weather.

# "PIMPLES" Broke Out All Over Her Face

Pimples are caused, almost entirely, by bad blood, and there is only one way to get rid of them, and that is to get at the seat of the trouble by using a good reliable blood purifying medicine.

Burdock Blood Bitters has been on the market for 35 years, and is one of the very best blood medicines procurable. After using it you will find that the pimples have disappeared, and you will have a beautiful clear complexion.

Mrs. Robert McVah, Red Deer, Ont., writes: "I am greatly pleased to report the benefit I have derived from the use of Burdock Blood Bitters. About a year ago I could scarcely walk, and pimples broke out all over my face. I tried one thing after another, but nothing seemed to do me any good. I was advised by a lady friend to try B.B.B., and before I had used one bottle I felt it was doing me good so I used three bottles, and I am now well and strong and the pimples have all disappeared."

Burdock Blood Bitters is manufactured by The T. M. M. Co., Ltd., Toronto, Ont.

## REAL ESTATE BROKERS REPORT GOOD DEMAND

LARGE AMOUNT OF PROPERTY IN EDMONTON AND STRATHCONA HAS CHANGED HANDS DURING THE PAST WEEK.

Real estate prices in city and suburban property have continued firm during the past week, with considerable advantages in some quarters. The outstanding feature of the week is the increasing activity in Strathcona property which the practical consummation of the negotiations for the amalgamation of the Twin Cities, with promise of an extensive programme of extensions of the street railway facilities in "South Edmonton" as the university city is already being styled, has brought about. While average property continues to advance, especially in the east end, and King George park, numerous sales at substantial advances in prices.

During the past few days H. Milton Martin has acquired 28 Whyle avenue lots at prices ranging from \$1600 to \$2100, and lots which six months ago were purchasable for \$600. Mr. Martin's business for the week totals \$28,000, of which \$12,000 represents cash sales.

The Lundy-McLeod Co. has experienced a week of unusual activity in a period which normally shows a fall-off in real estate business, and practically the whole of the week's business, involving the transfer of property amounting to in the neighborhood of \$200,000, was in transactions with outside capitalists. "Business is as good with us today as it was a couple of months ago," said Mr. Lundy in conversation with the Capital yesterday. Four lots on Third street, a couple of blocks north of Jasper avenue, were sold this week by the Lundy-McLeod Co. for \$200,000. Cash sales.

**WOMAN SENTENCED TO BE HANGED TELLS STORY OF HER CRIME**  
(Continued from Page One.)

In return, Mrs. Napolitano's execution is set for August 9—a month after the expected birth of another baby in July. At her trial the woman made a startling plea for mercy.

She had murdered, she confessed to the court. But she murdered because she wouldn't become a "White slave." She killed her husband rather than sell him.

The court condemned the self-confessed murderer, but her plea aroused wide sympathy. Women especially became interested. They didn't condone the crime, though they realized how great was its provocation. Quite aside from her guilt or her innocence, they felt that womanhood and motherhood would be outraged if this woman, who is entering the shadow of death that child may live, shall pass through the valley only to stand upon the gallows.

It isn't easy to interview a prisoner sentenced to death under Canadian law. But prison rules notwithstanding, the doors of the old gray prison farm in the park on Queen street swung

heavy brown face tells little to one who would try to read there the degree of her suffering or her sorrow. Her big, dark eyes seem to have the sadness of the world buried in their depths, but even when she tells of the revolting life to which her husband would condemn her, or when she speaks of the four little children, who may soon be motherless, the expression of her eyes remains unchanged, her face gives no sign.

Large, strong, of youthful build, she speaks now so rarely above a whisper. Her voice is faint and hoarse as if she were truly "sick of life." The freshness of youth still touches her sun-browned cheeks and her full red lips—lips that never smile now. Her prayer book is open before her, for she had just received a visit from the Italian priest, Father Bruno. Good work is waiting to be taken up when her visitor withdraws.

She very timidly held out her hand. Its coldness, its death-like heaviness more than anything she had said, or anything she had done, made me understand the fear that rested upon her, the terror which even the radiant June sunshine must seem a black cloud.

It seemed a pity not to be able to tell her then that women in Saint-Sauveur—her neighbors in "Little Italy," the club women in Toronto, the women in the W.C.T.U. in various cities were that very hour working to save her from the gallows, and that after all, unless she gives her life for her unborn child, that child may be the means of her salvation. But prison rules would not permit.

**PREPARING FIRST CLASS PROGRAM**  
TRADES AND LABOR COUNCIL ALREADY ARRANGING TO FITTINGLY CELEBRATE LABOR DAY

Initial steps will be taken by the Edmonton Trades and Labor council on Monday night to arrange one of the most elaborate labor day programs ever carried out in this city. Members of the various affiliated unions believe the time is opportune and conditions generally favorable for a grand demonstration under the auspices of organized labor and they propose to make the best of it, leaving nothing undone to have this year's celebration a brilliant success.

The trades council at its last meeting decided to observe the day in befitting manner, and now the local unions, through their representatives in the central body, will push the arrangements through to early completion. Among other features it is proposed to make the sport programme one that will be a credit to any organization or combination of organizations. The programme will include a variety of sports, in fact everything that appeals to the average Canadian with the proper amount of sporting blood running through his veins.

Whether or not the hosts of labor will hold a parade prior to the sporting events will probably be decided Monday night.

Bene Lemarchand leaves on Wednesday for Cleveland on a business trip.

H. Milton Martin leaves on Wednesday on a business and pleasure trip to Montreal and Cleveland.

## Salary Limit in Lge. Was Raised

COMPLETE REPORTS OF LEAGUE MEETING WHICH WAS HELD IN BRANDBON LAST SUNDAY SHOW A NUMBER OF IMPORTANT CHANGES TO HAVE BEEN MADE.

Full reports of the league meeting which was held last Sunday at Brandon have come to Edmonton through some eastern papers. It appears that the most important thing that was done was left out of the telegraphic report, which was sent out, namely that the salary limit was raised from \$1,500 to \$1,800. Edmonton, Calgary and Saskatoon all want salaries that are within the salary limit while Moose Jaw and Brandon complained that it was impossible to keep under the amount, it was so small. Unipre Murray has resigned. Those present at the meeting were: President G. J. Eckstrom, A. M. Blackman, Winnipeg; J. F. Cairns and E. E. Harrison, St. Louis; Dr. Pennington, Moose Jaw; W. G. Weatherstone and Rupert Metcalfe, Brandon; Calgary and Edmonton were not represented.

## Lord Derby's Colt Won P. of W. Stakes

Newmarket, Eng., June 29.—Lord Derby's four-year-old colt, Swinford, by John O'Gaunt-Gauntbury-Pilgrimage, at 3 to 1, today won the Princess of Wales stakes, one mile and a half, with \$17,000. Mr. Fairley's Lemberg, the odds of favorite at 4 to 6 being second, and Lord Derby's King William, 9 to 2, third. Great rivalry has existed between Lemberg and Swinford since the latter beat the former in the St. Leger last year. Lemberg turned the table again by winning the cup at Epsom over the Derby course on June 1 and today's race has yet again reversed that verdict.

## ENTRIES FOR 'STRATHCONA SPORTS ON JULY 1ST.

Strathcona, June 29.—Given a few hours of warm sunshine today and the second annual Dominion Day in Strathcona tomorrow will be one of the most successful sporting events ever witnessed in the city. Preparations for the big day have been exceptionally well carried out by the committee and no efforts are being spared to provide amusement and accommodation for the crowd of visitors at the athletic park during the afternoon's program. The steady rain of the past three days is in some respects unfortunate, but the exhibition grounds are well drained and the track will dry rapidly under the influence of a few hours sunshine. As for instance might be mentioned the first annual celebration here last year when the rain continued until the middle of July 1, then the clouds began to break away in time to give almost a perfect track for the races in the afternoon.

In the horse racing program visitors at the grounds tomorrow may expect something really worth while. The entries now listed show several good trotters and colliers are to be in action and the races are numerous and varied enough to hold the attention right through. In only one event did the entries fail to fill up the events, this being the half mile trotting race for Alberta bred yearlings. In order to keep the race on the program the committee yesterday decided to make this event open for green horses, heats to be one half mile, best two in three. Entries for this altered event will continue to be received until noon tomorrow. Another interesting race will be the Victoria Green novelty, in which the riders are to run their horses some distance up the track, load the offside of a wounded soldier on their horses and return in the starting post to the accompaniment of a fusillade of musketry.

Four School Teams Entered. In the athletic line some good sport is promised. For the provincial championship shield presented by J. M. Douglas, M.P., there will be four public schools in competition, representing Westsaskatoon, Edmonton and two Strathcona schools. The winners of this event will be presented with the shield by Mrs. Douglas, wife of the donor. The open events for juniors under 17 years the competitors should be of senior calibre. The contestants number some of the fastest juniors in the province.

Excess Big Circus Here. Two performances will be given on the exhibition grounds tomorrow by Al. G. Jarnes big wild animal circus, one during the afternoon and another in the evening. The circus will come in to day and tomorrow night will open proceedings with a street parade. Even if the weather remains unfavorable for some of the sports the circus will still be a big attraction.

In every respect the parks committee of the city council has assisted by time and money to make this celebration a success. The new grand stand is complete and the new fences will be finished today if possible. Applications for booth space have already exceeded that of last year so refreshment vendors.

EDMONTON VS. CALGARY

DIAMOND PARK

TONIGHT, 7 O'CLOCK

IT IS ALLEGED THAT DE COURSEY WILL MEET BILL ALLEN FOR A FIGHT EARLY IN JULY

It is alleged that there is going to be a prize fight late in June at Edmonton, sometime during the next week the contestants being Billy DeCoursey and Billy Allen. Billy Allen is a good fighter. DeCoursey's fighting is already known to Edmonton fans. The fight will take place in the Lyceum theatre.

## RESULTS IN THE BIG LEAGUE

National League Standing.

Team	Won	Lost	P.C.

Portland	0	4	.000
Seattle	0	4	.000
Batteries	0	4	.000
Jensen and Harris; Wiers and Shea.			

Given after analyzing the box scores as given in the American papers at hand, of the games in which Walter Johnson officiated so far this year we do not blame him for asking \$7000 to pitch ball for that mob. A few days ago in Philadelphia Johnson held the Athletics to five hits and still lost his game. The Mack team gathered in six runs all on errors and won. Wouldn't you if you were a star pitcher and asked for \$7000 to pitch for a team that was losing? Seven thousand is not enough; he should ask ten thousand next year.

Take Johnson and place him with the Detroit team. It's doubtful if he would lose half a dozen games all season. With Washington he seems to be a sure thing. Seven thousand is not enough; he should ask ten thousand next year.

Chicago has now four hard-hitting outfielders. This is the first time that Comiskey was ever blessed with this condition, for in former years his outfielders were all right when it came to the fielding part of the game, but woefully weak with the stick, that sends the runs over the plate to be registered. In McIntyre, Callahan, Dougherty and Rode he has a quartet of hard-hitting outfielders.

The National board has ruled that the Seattle team of the Northern league must keep its agreement with the Rock Island club of the I.L.L. league to give the club two players of I.L.L. calibre in exchange for Outfielder Davidson. From the showing of the Seattle team it might be expected that the club will give up I.L.L. calibre to deliver.

The south is generally considered to be the ideal place for veterans to play on a second league, but what's the matter with Toronto, on the chill shores of Lake Ontario? The average age of the Toronto players is about 40 and all are said to be marvellous "come backs." The list includes Willie Keeler, Bill Barry, Joe Kelley, Tim Lardner, Eddie Phelps, etc.

Malachi Kilbridge, of the Saginaw team in the South Michigan league, has been named as his successor. A newspaper note says Pitcher Bender, "who has the makings of a second Walter Johnson," is out of the game with an ankle twisted in running for regular play. Anything so precious as a Walter Johnson in the making should be handled with care.

Springfield, twice pennant winner in the I.L.L. league, which lost its team because of poor support by the public, now sees its name at the bottom of the standing in the "Three-L" league, an organization composed of Illinois players who play games about three times a week. The Springfield team in this league had, at last accounts, not won a game all season.

The downfall of Marvin Pashley, hailed in the spring as the rival of Jack Combs in putting Maine on the map with his great pitching, is complete. Detroit released him to the American association; he went from that circuit to the Central league, then to the South Michigan league, from which he has now been released unconditionally. Pashley thinks swinging an axe in the Maine woods made him muscle bound.

Manager McGraw says that the \$200 fee for Raymond does as it says, and if "punch" does not know in condition, a line of a few hundred more will be clipped on him.

Walter Naege, the California pitcher, has been sold by Pittsburgh, to the Boston Americans.

## May Make Changes In American Lge.

FRANCHISE MAY BE TAKEN AWAY FROM THE DETROIT CLUB AND GIVEN TO ST. LOUIS, THE ST. LOUIS FRANCHISE BEING GIVEN TO ANOTHER CITY.

Several recent conferences between President Johnson, of the American league, and other club owners, are reported to have been held for the purpose of taking Detroit's franchise away.

"I have heard nothing definite," said President F. J. Navin, of the Detroit club today, "but I would not object to selling the club. We are not losing money in Detroit, but neither are we making a dollar, and I have heard of constant kicks from other club owners all this year."

Along with the Detroit franchise, the franchise of the Detroit club may be transferred to St. Louis. The team now representing St. Louis would be transferred to another city and Detroit would be left out of organized baseball.

## MAROONS ARE CLIMBING UP ONCE AGAIN

Brandon, June 29.—The opening combat of the Brandon-Maroon series this evening was a single fist in which the visitors had very much the best of the fight.

Reese and Roy, the opposing twirlers, were both hit hard, but the visitors' finger fiddled up in spots and got away well, and at the end of the fifth, with the score 3 to 1 in favor of the home team, the game was over.

The box scores: Brandon—A. B. R. P. O. A. E. Hunter, r.f., 5 0 2 0 0 0. Holmes, 3b., 5 4 2 2 2 2. McGraw, c., 5 1 2 1 4 3. Manes, l.b., 4 1 2 1 0 0. McGraw, c., 5 1 2 1 4 3. Manes, l.b., 4 1 2 1 0 0. McGraw, c., 5 1 2 1 4 3. Manes, l.b., 4 1 2 1 0 0.

Totals—34 4 12 27 15 5. Winnipeg—A. B. R. P. O. A. E. Glass, r.f., 5 0 2 0 0 0. Freer, i.f., 5 1 2 0 0 0. Kirkham, 2b., 3 1 0 2 5 0. White, 1b., 5 1 2 13 1 1. Isbell, c., 5 3 4 1 0 0. Collins, s., 5 0 1 1 3 0. Edmunds, 3b., 5 4 1 4 1 0. Glocker, 3b., 5 1 3 2 0 0. Itay, p., 5 0 1 0 6 0.

Totals—43 10 15 27 16 1. Score by innings: Brandon—0 0 10 0 10—4. Winnipeg—0 0 10 0 10—4. Summary—Three base hits, Isbell 2, two base hits, Holmes, Manes, Guster, Glas, White, Isbell 2, Collins, Edmunds, McGraw, McGraw, Guster, Stolen bases, McGraw, Freer 2, Guster, Freer 2. Kirkham, Edmunds and Glocker; bases on balls, by Reese 2, by Ray 1; struck out by Reese 6, by Ray 3; wild pitches, by Ray 1; time, 2 hours; umpire, Morrow.

Fitzgerald, of the Highlanders, has been playing swell ball during the absence of Harry Walter.
